INFORMED CONSENT

Please read this entire document prior to signing it. It is important that you understand the information contained in this document. Please ask questions before you sign if there is anything that is unclear.

NATURE OF THE CHIROPRACTIC ADJUSTMENT. The primary treatment I use as a Doctor of Chiropractic is spinal manipulative therapy. I will use that procedure to treat you. I may use my hands or a mechanical instrument upon your body in such a way as to move your joints. That may cause an audible “pop” or “click,” much as you have experienced when you “crack” your knuckles. You may feel a sense of movement.

ANALYSIS, EXAMINATION, AND TREATMENT. As a part of the analysis, examination, and treatment, you are consenting to the following procedures (please initial):

- | | |

| <input type="checkbox"/> Spinal Manipulative Therapy | <input type="checkbox"/> Postural Analysis Testing |
| <input type="checkbox"/> Palpation | <input type="checkbox"/> Ultrasound |

| <input type="checkbox"/> Muscle Strength Testing | <input type="checkbox"/> All of the above |

THE MATERIAL RISKS INHERENT IN CHIROPRACTIC ADJUSTMENT. As with any healthcare procedure, there are certain complications which may arise during spinal manipulation and therapy. These complications include but are not limited to: fractures, disc injuries, dislocations, muscle strain, cervical myelopathy, costovertebral strains and separations, and burns. Some types of manipulation of the neck have been associated with injuries to the arteries in the neck leading to or contributing to serious complications including stroke. Some patients will feel some stiffness and soreness following the first few days of treatment. I will make every reasonable effort during the examination to screen for contraindications to care; however, if you have a condition that would otherwise not come to my attention, it is your responsibility to inform me.

PROBABILITY OF THOSE RISKS OCCURRING. Fractures are rare occurrences and generally result from some underlying weakness of the bone which I check for during the taking of your history and during examination and X-ray. Stroke has been the subject of tremendous disagreement. The incidences of stroke are exceedingly rare and are estimated to occur between one in one million and one in five million cervical adjustments. The other complications are also generally described as rare.

AVAILABILITY AND NATURE OF OTHER TREATMENT OPTIONS. Other treatment options for your condition may include: self-administered, over-the-counter analgesics and rest; medical care and prescription drugs such as anti-inflammatory, muscle relaxants and pain-killers; hospitalization; and/or surgery. If you chose to use one of the above noted “other treatment” options, you should be aware that there are risks and benefits of such options and you may wish to discuss these with your primary medical physician.

RISKS AND DANGERS ATTENDANT TO REMAINING UNTREATED. Remaining untreated may allow the formation of adhesions and reduce mobility which may set up a pain reaction further reducing mobility. Over time this process may complicate treatment making it more difficult and less effective the longer it is postponed.

DO NOT SIGN UNTIL YOU HAVE READ AND UNDERSTAND THE ABOVE.

I have read or have had read to me the above explanation of the chiropractic adjustment and related treatment. I have discussed it with **Dr. Sharon Bruce** and have had my questions answered to my satisfaction. By signing below I state that I have weighed the risks involved in undergoing treatment and have decided that it is in my best interest to undergo the treatment recommended. Having been informed of the risks, I hereby give my consent to that treatment.

Financial Policy Insurance Coverage

Welcome to **The Lumbar Yard**. Your insurance policy is an agreement between you and your insurer, not between your insurer and this clinic. Like all types of care, coverage for chiropractic services varies from insurer to insurer and plan to plan. Most insurance policies require the beneficiary to pay co-insurance, co-payment and/or a deductible. For example: if you have a deductible of \$100, and your insurance pays 80%, you are responsible for 20% of all charges incurred during the year after you have paid your \$100 at the beginning of the year. Our clinic will call your insurer to verify your benefits, however, we are not responsible for your insurer's final payment and benefit determinations.

Payments

In order to help you determine your responsibility toward payment for services, please read the following, and initial your preference for the method of payment of your account. Please notify this office if the status of your insurance changes.

Private Pay: (please initial)

A ____ As I have no insurance, I agree to assume all responsibility and to keep my account current by paying for services when they are rendered.

B ____ I have insurance, but I wish to file my claims personally, and I agree to assume all responsibility and to keep my account current by paying for each visit at the time services are rendered.

Health Insurance: (please initial)

C ____ I would like this clinic to bill my insurance. I understand I am responsible for the costs of treatment.

Missed Appointments

It is the policy of **The Lumbar Yard** to assess a **\$10** missed chiropractic visit fee and a **\$45** missed massage visit fee to patients who cancel appointments with less than a 24-hour notice. One missed visit will not result in the assessment of a fee, but you will be charged for any additional missed visits. This clinic provides care for many individuals and missed visits result in time lost that could have been used to provide care for others.

_____ My initials here indicate that I understand the above missed visit policy.

I understand that all health services rendered to me and charged to me are my personal financial responsibility. I understand and agree to the conditions of this policy.
